REMARKS

25X1X

1. Thirty-six Pe-2s and four twin-engine semi-high-wing monoplanes were counted at the Goetzendorf (P 49/X 57) airfield on 14 June 1950. Five Pe-2s apparently had two cockpits. There was much flying, including firing practice at towed sleeve targets. *

25X1B

2. Twenty officers were standing in front of the officers' instruction room in Goetzendorf.

25X1B

3. were seen in the yard of the estate at Margarethen am Moos (P 49/X 57) on 12 June 1950. More trucks were parked behind the former manor house. About 100 soldiers were drilling there. Many officers and LM wearing flying suits were seen. The flying personnel of the Goetzendorf airfield are presumably quartered in Margarethen am Moos and not in Goetzendorf. **

* Comment.

25X1B

the airfield is still occupied by a regiment of the 8th Gds Bmr Div. Four A-20s, the twin-engine semi-high-wing monoplanes, were previously seen at the field.

** Comment. The information that the flying personnel are quartered in Margarethen am Moos was previously reported.
